**Algorithm 1** Random snippet from MinPQ

---

```
1 function "="(Left, Right : Connection) return
   Boolean is
2 begin
3   if Left.PG_Data = Right.PG_Data then
4     return True;
5   end if;
6
7   if Left.Connect_String /= null and Right.
   Connect_String /= null then
8     return Left.Connect_String.all = Right.
   Connect_String.all;
9   end if;
10
11  return False;
12 end "=";
```
