# CISC103 Homework 1:

*Due Sunday (Feb 15) at Midnight on Sakai*

You will be turning in 2 separate files: one text file with the answers to questions 1-5, and one html template (with the very basic html tags). Both pages should be uploaded to the server (as per lab on Friday), and the urls of each submitted on Sakai.

Questions:

1.  What is your TA's name and email address?
2.  Briefly (in two sentences or less) what is the difference between TCP/IP and HTTP?
3.  Define the term: URL
4.  Briefly describe the client-server model.
5.  What two things does the browser do?

HTML Template:

6.  Create an html template.  Make sure it validates using the w3c validator.

Turn in your question answers and your template html page via sakai
