Feb 20
Title: Vision towards Pervasive Edge Computing
Yuanyuan Yang, SUNY Distinguished Professor, Stony Brook University

Mar 6
Title:
William Maignan

Mar 20
Title: The Power of Many: Abstractions, Adaptivity and Applications.
Shantenu Jha, Associate Prof. of Computer Engineering at Rutgers University Chair, Center for Data Driven Discovery, Brookhaven National Laboratory.

Apr 10
Title:
Vipin Chaudhary, NSF Program Director
Professor, Dept. of Computer Science and Engineering, Univ. of Buffalo

Apr 24
Title: OpenARC: Extensible Compiler Framework For Directive-Based, Efficient Heterogeneous Computing
Seyong Lee, Computer Scientist, Future Technologies Group, Oak Ridge National Laboratory

May 8
Title: Extracting Interesting Research from Industry Problems
Rajiv Ramnath, Professor of Practice, Computer Science & Engineering, The Ohio State University
