Assessment of Individual Performance in a Group Project

Your Name: _____

    Names of ALL Group Members, including yourself:

1. _____

2. _____

3. _____

4. _____

5. _____

    Use this form to assess the contributions of everyone in your group, including yourself. Please be accurate and honest in your answers.

Part 1: Using the following scale, rate each member of your group (member 1, member 2,... as listed above). Then rate yourself under "You".

    5: strongly agree; 4: somewhat agree; 3: ambivalent; 2: somewhat disagree; 1: strongly disagree.

Characteristic	Member 1	Member 2	Member 3	Member 4	You
Contributes technically sound ideas					
Effective Planner					
Strong Leader					
Recognizes the difficult issues					
Stays on task					
A good team player					
Aggressively attacked the assignment					
A dependable person					
Considerate of team members' needs					
Focuses on improvements beyond minimum					
Offer constructive criticism					
Motivates Others					
Does Fair Share					
Mentors Others					
Effective writer					

Part 2:

Which 1-2 team members are the best at making decisions? _____

Which 1-2 team members are the best at planning? _____

Which 1-2 team members are the best at coding initial programs? _____

Which 1-2 team members are the best at identifying and fixing errors? _____

Which team members kept you all motivated? _____

Which team members are the most effective writers? _____

If you could go to one person on your team for technical advice, who would you go to? _____

If your group was given $1000 for working on this project, place a whole dollar figure beside each person's name above to represent the amount you believe that person "earned". Note that the total should be exactly $1000. The dollar figures should generally represent the share of the work done by the group members.

Any final comments?
